Keshav Kundan

AI Full Stack Developer | MERN Stack

keshavkskr400@gmail.com | 7672843642 | Samastipur, Bihar
https://github.com/Keshavsingh045 | https://www.linkedin.com/in/keshav-kundan-726071252
https://keshav-portfolio-delta.vercel.app/

Skills

Hard Skills: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL, Git
Soft Skills: Communication, Critical thinking, Teamwork, Problem-Solving, Adaptability

Work Experience

MERN Stack Intern - Taxmann Technologies Pvt. Ltd. *Feb 2026 - Aug 2026*
React.js, React Native, Node.js, MongoDB, JavaScript, Express.js
- Built full stack web apps with MongoDB, Express.js, React.js, and Node.js, delivering features.
- Created reusable UI components, enhancing user experience and performance.
- Designed and integrated RESTful APIs for smooth frontend-backend communication.

Frontend Developer Intern - Hexadecimal Software Pvt. Ltd *Oct 2025 - Apr 2026*
HTML/CSS, React.js, Node.js, JavaScript, Supervised Learning
- Built responsive web pages using HTML, CSS, JavaScript, and React.
- Integrated backend APIs and ensured smooth data flow.
- Improved UI performance and enhanced the overall user experience.

freelance - Outlier AI *Feb 2025 - May 2025*
Data Mapping, Supervised Learning, Deep Learning, Generative AI
Worked as a freelance AI assistant, solving client problems, creating effective prompts, and delivering accurate AI-driven outputs.

Technical Projects

pdf editor *2025*
HTML/CSS, JavaScript
GitHub Repository Live Demo

AI-Powered PDF Review & Data Extraction Dashboard (Next.js, Node.js, TypeScript, MongoDB, Gemini API, Groq)
- Built a full-stack monorepo application with separate web (Next.js + shadcn/ui) and API (Node.js + TypeScript) layers.
- Developed a PDF viewer using pdf.js for in-browser viewing with zoom and navigation support.
- Integrated Gemini API and Groq for AI-based invoice data extraction and editable form display.
- Implemented CRUD operations and invoice record management using MongoDB (Atlas).
- Deployed both web and API apps on Vercel with clean REST endpoints and robust validation.

Dashboard Builder *2025*
HTML/CSS, React.js, JavaScript, API Integration, Web Analytics
GitHub Repository Live Demo
- Developed a dashboard builder tool using React, enabling dynamic UI components and responsive layouts.
- Integrated backend APIs to fetch and display real-time data in visual widgets (charts, tables).
- Implemented HTML, CSS and JavaScript to ensure the dashboard adapts across devices and screen sizes.

Speak Easy Tutor *2026*
HTML/CSS, React.js, JavaScript, TypeScript, Revit
GitHub Repository Live Demo
- The web app improved spoken communication skills with a responsive design.
- Created reusable UI components using React, TypeScript, and Tailwind CSS.
- Used Vite and modern frontend practices to streamline development.

Problem Solving & Data Structures

Demonstrated problem-solving skills by applying core data structures and algorithms, including searching, sorting, and dynamic programming, to develop efficient solutions. Regular practice on platforms like HackerRank and LeetCode enhanced logical reasoning and coding proficiency. Utilized Python, JavaScript, Git, and VS Code to implement and refine solutions, supporting project development and technical growth.

Education

IITM Group Of Institutions | DCRUST CGPA: 7.53
B.Tech | Computer Science Engineering (2022 - 2026)

SNNR College Chamtha Begusarai Percentage: 68.2
Class XII (2022)

Public Central School Percentage: 78.2
Class X (2020)

Certifications

- Full Stack Develop Developer - United Latino Student Association (October 2025)
- Solutions Architecture Job Simulation - AWS (October 2025)
- Data Analytics Job Simulation - Deloitte Australia (October 2025)
- TCS iON Career Edge young professional - Tata Consultancy Services (October 2025)

Achievements

- Solved over 300 coding problems on HackerRank, strengthening my skills in data structures and algorithms.
- Recognized with HackerRank Advanced SQL certificate for applying complex querying skills.
